

An aerial night photograph of a city harbor. In the foreground, a large building with a distinctive, illuminated, wavy roof stands out. The harbor is filled with water, reflecting the city lights and the sunset sky. Several ships, including a large sailing ship, are docked or moving through the water. The city skyline is visible in the background, with numerous buildings lit up. The sky is a mix of orange, pink, and blue, indicating the time is dusk or dawn.

IN THE CITY

Internationales maritimes Museum Hamburg

Hardly any other city in Germany is more maritime than Hamburg - and this development dates back several centuries. Where else but here could you go on an expedition through 3000 years of shipping and naval history?

In the International Maritime Museum, located between HafenCity and Speicherstadt, you can celebrate your corporate and private events in the world's largest private collection of maritime treasures. Plan your conference or birthday party with the stories of conquerors, captains and sailors.

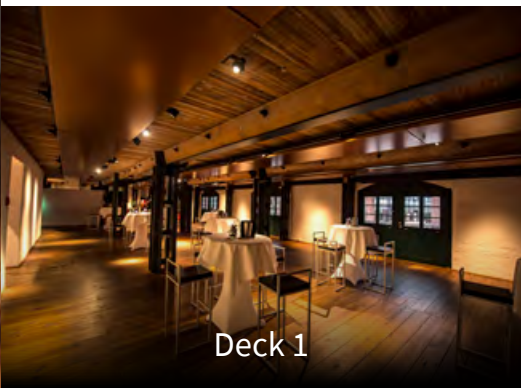

On several decks, the location welcomes you with authentic flair and a unique view of the canals, bridges and Kontor houses of the UNESCO World Heritage Site. Combine your event on "Deck 10" with an exclusive guided tour and immerse yourself in the world of ship models, construction plans and nautical equipment.

For events in the open air, the spacious wooden terraces will guide you to the North German breeze and provide a wonderful view of Hamburg's Quartier by the water.
