

An aerial night photograph of a city harbor. In the foreground, a large building with a distinctive, illuminated, wavy roof stands out. The harbor is filled with water, reflecting the city lights, and several ships are visible. The city skyline is visible in the background, with numerous lit-up buildings and streets. The sky is a mix of dark blue and orange from the sunset.

Factory Hammerbrooklyn

Hamburg has long been able to do what New York can do. This vision has resulted in the Factory Hammerbrooklyn, one of the largest innovation networks in Europe. In the former US pavilion of the 2015 Milan Trade Fair, you can give free rein to your creativity in Hamburg's digital district and plan unique events in state-of-the-art premises.

Built to the highest standards for intelligent buildings, the Factory Hammerbrooklyn not only offers a unique view, but also state-of-the-art facilities and high-quality technology.

Facilities for all needs and, above all, for every occasion can be found on several floors: whether small meeting rooms, conference rooms or large spaces - the building, which is said to provide the right infrastructure for innovation and spirit of the times, can easily be transformed into an event location for your conferences, meetings, kick-offs or evening events.
